Dimensions	152 cm x 305 cm
Warnings & Restrictions	Not suitable for temperatures over 77°C. Nominal Dimensions: Dimensions are nominal size due to pinched corners and reinforced side walls.
Recycled Content	N/A
Sold as	0

Description

Protect personnel and equipment from overhead leaks by draining/diverting liquids via a drainage hose that acts as a downspout; longer rectangular shape — ideal for catching leaks and drips from long cracks or fissures

Flow rate is 12.6 litres/minute when used with a 1.2cm ID Drainage Hose (hose sold separately)

12 heavy-duty grommets for easy installation and tear prevention

Nonpermeable tarp is vinyl coated for strength and durability; resists punctures, UV and mildew for long life

Choose translucent to let light through; grey to blend in with plant ceilings or clear to easily monitor leaks
