## Description

Soak up big spills fast; super-thirsty fibres pull in litres of liquid to keep your floors clean, dry and safe

Absorbs most common industrial liquids - oils, coolants, solvents, water and more

No leak zones! Consistent construction produces a mat that is free of light spots to absorb liquid evenly for better wicking and retention

Stays together, even when picking up or shifting a fully saturated mat

Contains 75% recycled fibres; ideal in situations where green products are desired or required

Fire retardant for added safety; flame-tested in accordance with ASTM Standard E84-08
