Description

Sturdy and soft but has a higher loft than standard mats for greater economy without compromising sorbency

Between SingleWeight and MediumWeight but able to take in 30 times its own weight in liquids

A random assembly of large-diameter MeltBlown poly fibers creates a lofty Mat that absorbs high volumes of liquid fast

Great for catching overspray or soaking up spills

Ultrasonic bond points fuse layers of fibers together — Mat keeps its shape even when completely saturated

Perforated every 48 cm lengthwise and 38 cm widthwise
