Description

Layers of 100% polypropylene are thermally bonded to make PIG Mat the strongest mat on the market; won't rip, tear or fray even when saturated

Exclusive dimple pattern speeds wicking of liquid throughout mat for faster, easier cleanup

Highly absorbent, fine-fibre construction won't leave behind liquids or fibre residue

Heavy-weight construction is highly durable and absorbent for demanding tasks and large-volume cleanups

Rolls are ideal for covering large areas and soaking up leaks and overspray
