Description

Strong and solvent-resistant for wiping machines and rough parts, but soft enough for cleaning skin or preparing surfaces

Exceptional abrasion resistance and wet strength that stands up to rough surfaces, jagged edges or metal chips

Excellent for heavy duty maintenance jobs like machine wipedowns and degreasing parts

Low-lint construction won't shed, pill or leave behind unwanted fibers when wiping parts

Convenient pop-up box lets you take just one wiper at a time while keeping remaining stock clean and dry; can be located conveniently at any workstation
